Drop off and collection of children:

No children are to be left at the centre outside operating hours. It is the parents or guardians legal responsibility to sign children in/out of centre daily. All children **MUST BE** signed in (for mornings) and out (for afternoons) each day by the parent or guardian with the time noted in the attendance book.

A daily attendance log is situated on the desk at front of centre. The Nominated Supervisor or staff member in charge must be notified if the child is to be picked up by someone other than the parent/guardian/authorised persons as per the enrolment form. The person will be required to provide proof of identification and this will be copied for our official records. Any persons collecting a child must be an adult and over the age of 18.

It is expected that parents phone the centre when child is booked in for afternoon session and will not be attending this will mean staff do not have to leave other children to look for your child.

If you have not collected your child/ children from the centre by a reasonable hour and emergency contact numbers have been exhausted then the Department of Family & Community Services – Child Protection Services will be called or child/ children taken to the nearest Police Station.

If you would like your child to attend the centre and it is a late afternoon booking please phone both centre and school by 2:00pm. A message will be given to your child's teacher. We cannot phone the school to say child will be attending the centre.

Late pick up fee of \$1 per min will apply after 6pm. Please ensure you phone the centre if you are going to be delayed as some children become distressed. It is comforting if we can offer the child an explanation.

Please keep us up to date with any changes to your child's enrolment/routine. A parent communication book is located on front sign in desk if staff is busy please feel free to write in this if not of a confidential nature.

Accidents:

The Centre will have a staff member with a current First Aid Certificate in attendance at all times. This person assesses the situation/accident and if minor, treat the injury, if in doubt calls the doctor/ambulance.

In the case of a serious accident, the child will be taken by ambulance to hospital and parents notified as soon as possible or the emergency contact number. The expense of the ambulance and medical attention will be the parents' responsibility.

If your child experiences an accident we take every measure to make your child feel as comfortable as possible. Hygiene procedures will be followed. We understand your child may be a little nervous and will try to make this transition as easy as possible. New children will have a tour of the centre as there are some out of bounds areas and centre rules to be explained. If you would like to visit the centre before your child attends please feel welcome as this can ease nerves on the first day.

Breakfast:

Please let us know if your child has not had breakfast when you arrive at the centre as we can provide toast, fruit and drink for \$1. Or provide your own – if bringing cereal please provide your child with some milk or you will be charged \$1. Breakfast is available up until 8.00am of a morning.

If your child has a food allergy or intolerance it is essential that you let us know through the provision of a medical management plan so staff can be advised and aware of your child's individual needs.

You may need to pack extra appropriate nut free snacks if child feels hungry after afternoon tea.

Centre Program:

A weekly program is displayed at the front of the centre. We program for all age groups, growth and development. A book is situated on front desk where you can write any ideas your child might like to try out as we value all parent / child input. We can program these ideas during the following weeks, where suitable.

The day's activities and interaction between children and staff is documented on an ipad by staff and are known as "reflections". This is required as part of our external assessment process and allows for an efficient, quality record of the program along with photos and video interaction, if required, to support the written report.
